High Performance 3U VPX Rugged PC

Kontron's VPX3 product family is the ideal solution for rapid bring up and deployments of 3U VPX embedded computers. With the VX3020, Kontron is offering an Intel® multicore rugged computer board with a complete set of I/O features allowing rapid design of embedded PCs in VPX form factor. The VX3020 design is based on long life-cycle chipsets from Intel® Embedded Architecture in order to protect customers' investments. Every step of the design has been driven by efficiency, safety and harsh environments compatibility.

**FEATURES**
